

AQUAVER TR

● SUMMARY

COVERING WATER BASE FINISH FOR DYING OF THERMOPLASTIC RUBBER SOLES (TR) WITHOUT CHLORINATION

● CHARACTERISTICS

AQUAVER TR is a covering water base finish for TR thermoplastic materials. Its special formulation allows to finish all the synthetic TR materials applying **AQUAVER TR** directly onto the material, without using of chlorinated primer. **AQUAVER TR** can be used both as finish to obtain covering, polish or mat effects and as covering base for brushed effects together with **SPAZZOLATO H**.

● APPLICATION

- **AQUAVER TR** is directly applied onto soles or heels by manual spraying or with suitable equipment.
- **AQUAVER TR** is applied by spray-gun (pressure 4.5 - 6 atm, 1.2 nozzle), either manually or by machine.
The product must be very well nebulised (matt effect will not be uniform if the application of **AQUAVER TR** is too wet or abundant)
- let completely dry in drying oven at 40 - 70°C (approx. 5 minutes) or at room temperature (at least 20 - 30 minutes)
- the peculiarity of this product is the excellent spraying quality. It can be applied both by special spraying machines produced by “MET” in Gropello Cairoli and manually by a spraying gun - nozzle (diameter 1.2 at a pressure of 5-6 atm). We suggest to well stir the product before use
- to obtain an uniform final effect, we recommend to keep the product constantly under agitation

● SOLVENTS

Use **WATER** for washings

● STORAGE

The expire date of the product shown on the label is valid for products if kept away from direct heat and cold and at standard storage conditions (minimum temperature 4°C to maximum 40°C).
Exceeding the expiration date does not necessarily mean that the product no longer meets the specifications or values set.
However, before using this product after the expiration date, Kenda Farben recommends checking whether it still meets the reference specifications or values. Kenda Farben will not be in any way responsible for failure to comply with specifications or values set after the deadline or due to incorrect storage that can shorten the life of the product.

This information is to the best of our knowledge true and accurate. However, all recommendations or suggestions are made without guarantee, since the conditions of use are beyond our control.
