

SINTOFIL

-
- **SUMMARY** **WATER BASED DRESSER, SPECIAL FOR EDGES OF SYNTHETIC AND LEATHERS HAVING THE SPLITSIDE VERY POROUS IN THE LEATHERGOODS FIELD (BELTS, BAGS, SUITCASES, ETC.)**
-
- **CHARACTERISTICS** **SINTOFIL** is an emulsion in watery carrier, especially conceived to dress and close the edge pores in synthetic material (or very absorbent leather) before the **ORLY** application. This type of dresser allows to obtain a full and covered edge of high quality, even with very absorbent materials.
 - **APPLICATION**
 - Dress the edge by means of the special machine without using any wax
 - stir **SINTOFIL** well
 - manually or by means of the special machine for the edge dyeing, apply a generous coat of product
 - let it well dry (for at least 10 - 15 minutes); in case, use an oven at 40 - 50°C
 - brush by means of the special edges brushing machine, without setting the machine with an excessive brushes pressure onto the edge, smoothing the product
 - then apply **ORLY** (see technical data sheet series 57) as final coat
 - **COLOURS** 357600 Colourless
 - **SOLVENTS** Use **WATER** for washings; in case the product has already dried, remove by means of **SOLVENTE 31708**
 - **PACKING** Bucket of Kg. 5 - carton of n. 4 buckets
 - **STORAGE** Shelf life: about 18 months if kept at an higher temperature of 10°C., into its original, well closed packing in a dry place. Keep from freezing and extreme heat. Stir the product well before its use.
