

TERMOLUX

● **SUMMARY** **HIGH GLOSSY, COVERING VARNISH FOR UNHALOGENATED TR RUBBER SOLES**

● **DESCRIPTION** **TERMOLUX** is a super-glossy and bright varnish for unhalogenated TR rubber dyeing. To be applied directly on TR rubber, being a monocomponent, ready-blend varnish, highly elastic and flexible. **TERMOLUX** has got an excellent adhesion power onto unhalogenated TR rubber and its glossy finish endures in the time. Due to its peculiar features **TERMOLUX** can be applied either manually or by spraying, getting first-class covering and brightening results. **TERMOLUX** is a versatile varnish which can be used itself as monochrome, as base coat for leatherette using then **SPAZZOLATO** (see technical data sheet series 20) or **SFUMATO** (see technical data sheet series 53), or as first coat for antique effects onto TR rubber using then **PRODOTTO S** series 81.

● **APPLICATION**

- Apply **TERMOLUX** by spray, manually or by means of special automatic machines produced by “MET” in Gropello Cairoli
- it can also be applied by means of a small brush
